OVERLOCKER SERIES

ML204D

## ML 204 D Features

Adjustable cutting width	Retractable upper knife
Seam type: 3 or 4 thread overlock	Snap-on feet
Differential feed ratio 0.5 – 2.2	At a glance threading chart
Colour coded thread guides	Needle guard front & back
Easy rolled hem change-over	Optional attachments
Length control	Seam widths: 3.5mm (narrow)
Numbered tension dials	7.5mm (wide), 2.0mm (rolled hem)
One hand thread cutter	

### Adjustable Cutting Width

Depending on the type or thickness of the material you sew, the seams may be too loose or too tight even when the tensions are correctly adjusted. In these cases, you can easily adjust the cutting width with this dial to correct the seam tension.

### Easy Rolled Hem Change-Over

No need to change the needle plate for rolled hemming. Just slide the needle plate setting knob to "R" position to convert the plate for rolled hemming.

### Range of Differential Feed Ratio

Stretched edges on knit fabrics are prevented by setting the differential feed dial between 1.0 and 2.2.

Puckered edges on fine woven fabrics are prevented by setting the differential feed dial between 0.5 and 1.0.

### Differential Feed

The differential feed device is designed to prevent fabrics from puckering or stretching. Both stitch length and differential feed dials can be set at any time, even while sewing.
